## AYRES

Geo. Madison was recently on a prospecting trip to Iowa and likes that section.

No one has luck like the fishermen. A trio of our ladies went after the finny tribe "roughshod" the other day. On reaching the creek, they decided to cross over in an old skiff half full of water. The lady handling the oars was an expert and got them across alright and they all got out except one who fell back and scared the fish all away from that place, so they thought best to travel down stream by land. Gathering up their tackles, made of broomsticks for poles and carpet chain for lines they marched down about 100 yard and ventured to the water's edge. The bank looked solid, but unfortunately it was soft below and caved in and the ladies all went down to over their belts. Of course they swam scared the frogs and fish away, and the ladies marched home in their muddy clothes without any fish to show.

J. E. and L. S. Cook have been on a visit to their former home in Illinois.
